

# GETREN® M 2600

## Chemical description

Emulsion of organo-modified siloxanes

## Physical properties

Appearance	white
Active content	approx. 40 %
Solid content (3 h, 120 °C)	18 – 21 %
Efflux time (DIN EN ISO 2431)	27 – 35 sec.
Specific gravity at 25 °C	approx. 1.0 g/cm <sup>3</sup>
Type of emulsifier	non-ionic
Type of emulsion	O/W

## Application

GETREN® M 2600 is a release agent for rubber mouldings.

## Advantages

- Suitable for all common rubber compounds
- Good wetting properties, thus a permanent film is easily achievable
- Stability at mould temperatures up to approx. 250 °C
- Good stability in dilutions which can be stored for up to 48 h

## Dosage/Handling

GETREN® M 2600 should be used as delivered. A dilution with water is possible, but this needs to be tested under the customer's specific circumstances. GETREN® M 2600 is sprayed onto the mould. It is important that the release film covers the whole mould to obtain the best results. The release film has to be dry before filling the mould.

## Registrations status

The components of GETREN® M 2600 are listed in the following chemical inventories:

EINECS, TSCA, DSL, ENCS, AICS, ECL, PICCS, IECSC.

## Storage stability

In originally sealed containers GETREN® M 2600 can be stored for at least 6 months. Protect from frost!

## Packaging

50 kg PE drum (450 kg per pallet)

## Hazardous goods classification

Information concerning

- classification and labelling according to regulations for transport and for dangerous substances
- protective measures for storage and handling
- measures in case of accidents and fire
- toxicity and ecological effects

is given in our material safety data sheets.

07/2016

## Trademark notice and legal notice

This information and all further technical advice are based on our present knowledge and experience. However, it implies no liability or other legal responsibility on our part, including with regard to existing third party intellectual property rights, especially patent rights. In particular, no warranty, whether express or implied, or guarantee of product properties in the legal sense is intended or implied. We reserve the right to make any changes according to technological progress or further developments. The customer is not released from the obligation to conduct careful inspection and testing of incoming goods. Performance of the product described herein should be verified by testing, which should be carried out only by qualified experts in the sole responsibility of a customer. Reference to trade names used by other companies is neither a recommendation, nor does it imply that similar products could not be used.
